

## We are looking for a new Partner for our Team!

We are passionate about what we do ... you too? Then this will be a great prerequisite for our collaboration.

In the past years we have arguably developed ourselves to become one of the most experienced specialists in the field of Succession and Talent Management. Our success is based on six elements:

- our ability to go new ways together with our clients in finding solutions for HR-challenges.
- the by us developed Talent Management Index<sup>®</sup>, the data bank of our international research study with 270 organisations and the thereof developed PRYSMA<sup>®</sup> Talent Management Model\*.
- experience from more than relevant 60 Talent Management projects.
- our Succession-Risk-Landscape, with which we can determine the succession risk in large organisations.
- our comprehensive competence in Transformation Management.
- our passion for what we do - and always together as a team.

We have set ourselves the goal to strengthen our market position and to consistently continue our innovative development journey. For this reason we will expand our team in the coming years. First of all we are looking for a creative personality with a strong consulting background. This **Partner** should be passionate about his/her work, should competently and responsibly use the given freedom, should actively create the future together with us and should be successful in doing so.

We would like to welcome our new **Partner** in the beginning von 2018. In 2018 we will also expand out team by another **Senior** and **Junior Consultant**.

We are looking forward to meeting you, if you ...

- collectively want to exploit the market possibilities, which are continuously opening up for us,
- bring relevant experience in Change and Human Resources Management with you,
- successfully concluded verifiable consulting projects,
- have fun in collaborating successfully with management boards and executive managers,
- want to tread new paths in supporting our clients,
- have creative ideas in and around our thematic focus and also want to implement these successfully in order to
- want to further develop our consulting atelier together with us.
